These products are submitted by the manufacturer to a factory production control.

Kiwa GmbH Polymer Institut, Germany, has performed the initial inspection of the factory and of the factory production control and performs a voluntary continuous surveillance, assessment and evaluation of the factory production control. This certificate attests that all provisions concerning the attestation of factory production control were applied.

The voluntary surveillance follows the basics of the questionnaire P 11246 for checking the factory production control.

The characteristics of the products are tested according to the following standard:

NF-EN 13813:2003-06

This certificate was first issued on 16.01.2018 and remains valid as long as the technical conditions or manufacturing conditions in the factory or the FPC itself are not modified significantly or it is withdrawn by the certification body.
